RE: Radon Test Results – Long term test over 4.0 pCi/L or two short term tests over 4.0 pCi/L

Based on the level reported, it is recommended that you install a mitigation system to lower the radon levels in your home. A list of certified mitigation specialists is available at <https://www.dhs.wisconsin.gov/radon/radon-mitigation.htm> to assist you in completing mitigation. The most local mitigator is Val Riedman with Croix Valley Radon Mitigation in Luck. Their phone number is 1-888-481-6870 or 1-715-554-0460 and the website is <http://radonrx.com/>

If you have any questions, feel free to call me at 715/485-8532.

Sincerely,

Brian Hobbs, RS
Environmental Health Sanitarian
