Adult Vaccine

Polk County Health Department is partnering with Ruby's Well Clinic to offer FREE adult immunizations to residents of the county. Many adults are in need of immunizations, and may not get them because of no insurance coverage and/or the high cost. There are five adult types of vaccines available at Ruby's Well Care (location information below). Please stop in if you have questions and they can help assist you in determining what vaccinations you may need. These vaccines are important to not only keep individuals healthy, but the community as a whole.

Opportunities to get these FREE of charge vaccines will be on: Oct 23, Nov. 27, Dec. 11, and Jan. 29, 2018 at Ruby's Well Care Clinic from 4-7pm. Walk-ins or appointments are welcome. No insurance or money is required for these vaccines. Ruby's Well Care is a volunteer clinic offering free services to people whom may have limited or no health insurance coverage. They are open every Tuesday from 4-7pm.

Again, the free vaccine clinics will take place on Oct. 23, Nov. 27, Dec. 11, and Jan.29 at Ruby's Well Care, located at 210 E. Park Ave. Luck, WI 54853. Don't miss this chance for free vaccines and to get up-to-date on your needed immunizations!

For Questions contact: Polk County Health Department 715-485-8500 or
